FAMILY FUSE.

East Toledo, July 17.—At about 10 o'clock last Saturday night two shots were fired in the vicinity of John A. Moore's on Wayne street, and a few moments after, some one cried out: "Who's shot; say tell me who's shot; I want to know." The shooting was

done by John Moore, Jr., and although the affair was hushed and even Toledo papers silenced, the truth is known. Johnnie had requested his father to give him \$500 to defray his marriage expenses, but his father and mother justly refused him that, though they were willing to support him, they could not afford to take another into the family to maintain. At this Johnnie drew a revolver and fired twice at his father, neither shot taking effect. Johnnie escaped to a neighbor's and the next night took a train for St. Louis, with \$200 in his pocket and the injunction never again to darken his father's door. The people express much indignation because the Toledo papers have refused to publish anything in regard to the affair.

THE STATE OF VIRGINIA.
New York, July 18.—A dispatch from Halifax says the passengers and crew of the steamship State of Virginia, wrecked on Sable Island, are extremely reticent fearing that any published statement would prejudice their case before the board of trade investigation on the arrival of the captain at Glasgow.

On Friday, the 11th, a dense fog set in and continued till Sunday morning. At 8 o'clock Sunday morning, when the captain thought he was 25 miles off east of Sable Island, during the dense fog which prevailed then the ship struck on a sand bank on the eastern end of the island about fifteen miles from the residence of Gov. McDonald. The minute guns brought the governor and family alongside in a surf boat, and the purser, doctor, fourth officer and eleven women and children were landed safely. Notwithstanding the heavy surf, Governor McDonald returned for the second boat load of eighteen persons, but when within about fifty feet of the shore the boat swamped. An old Irish lady immediately sank without any effort to raise herself. All other attempts to land were useless till 2 p. m., when the water became calmer and the ship's boats launched but two boats. After getting a short distance from the ship they found it impossible to land with safety and returned, and no further attempt was made till the next morning. Every available boat and crew were brought into requisition for sleeping accommodation; some cheese and other eatable portions of the cargo which were floating about secured, besides some seventy head of cattle which had swam ashore. By 6 o'clock Monday the ship had settled in the sand. There was nine feet of water aft, nine in the engine rooms and six in the hold. The sea was breaking over, and it was determined to make an immediate effort to get every soul on shore. The boats were launched, and the surf boats again put off all the remaining passengers and crew got into these after a great deal of exertion and landed safely seven miles distant. At 8 o'clock Monday night the pursuer accompanied by thirty passengers and nine of the crew left Sable Island in an open boat to reach main land and Halifax to procure assistance. After many privations and several narrow escapes from drowning they reached a small place called Port Finkerton.

The agent of the line at Halifax, has made arrangements for a government steamer Glendon, to sail at noon to-morrow for Sable island, to bring the survivors who are expected to reach Halifax Friday night.

THE "SENTINEL"

Has the Largest Bona Fide Circulation of Any Daily Paper in the State, outside of Indianapolis. Advertisers and Others are Invited to Call at this Office and Verify this Assertion.

The Staats Zeitung is doing excellent service in favor of water works.

The Ligonier Banner denies that it "booms" for LANDERS. The "boom" may be very faint but still it is a "boom."

In an interview ZACH CHANDLER says he does not believe GRANT will be nominated next year. ZACH probably thinks he could place his hand on the nominee most any day.

The Toledo Blade is suffering from one of its periodical attacks on the canal question. Speaking of Indiana, the Blade says:

Her conduct in regard to the Wabash and Erie Canal is quite as bad as any violation of public faith that ever Missouri was guilty of. The whole state of Ohio has just cause for complaint against her, and steps are now being taken to see if she cannot be compelled to do justice. Ohio has kept her share of the canal up, and she has a right to demand that Indiana shall do the same.

There is one element in the water works question which is not receiving proper attention. It is a demonstrable fact that the water which is used for drinking and culinary purposes in various quarters of the city is impure and unwholesome, and there is no doubt that its use is productive of more or less sickness. There are a few neighborhoods in which the water is exceptionally pure and wholesome, but there are many others in which it is not. Mr. Cook's investigations show that our city can procure an abundant supply of good water from several different sources, and there is no doubt that its use would add materially to the general health of the city. There are many places in the city where the water was once wholesome but it has become contaminated by the sewerage until it is no longer fit for use. The health, comfort and general well being of our citizens would be materially advanced by an abundant supply of pure water.

We regret to observe a growing "unpleasantness" between the Indianapolis Sentinel and the New Albany Ledger-Standard. If these journals, instead of wasting their ammunition upon each other, would join forces against the common enemy it would be much better. However it is but fair to say that the Ledger-Standard has a perfect right to its preference for governor and president without having its democracy impugned. It has the same privilege of expressing its views as to the best persons for the democracy to nominate that the Indianapolis Sentinel has. The Indianapolis Sentinel has not yet been constituted the dictator of the democratic party of Indiana, and it the Ledger-Standard chooses to oppose LANDERS and HENDRICKS and endorse TILDEN its right to do so cannot be questioned. Its position may be open to criticism, but it is only fair to say that fealty to those two men does not constitute an inflexible test of democracy, even in Indiana.

The Amenities of Journalism.

[Logansport Journal (rep.)]

The Indianapolis Journal is raising every newspaper office of note in the land to write up or down the lives of the editors. We tremble in our No. 10 boots.—Richmond News.

If the Indianapolis paper desires to furnish its readers with an execrably funny article, it should send a man to Logansport to write up the Journal of that city. He will find a ferocious monkey in the editorial office which will furnish him much amusement as well as the nucleus of an interesting "tail."—Fort Wayne Gazette.

The Indianapolis Journal man will not squander his time upon Loganport "tails" when he learns that the counterpart, with a variation, of the Cincinnati boy with a tail edits the Fort Wayne Gazette. The "variation" consists of the fact that the protuberance attached to the lower termination of the Cincinnati boy's spinal column wiggles-wiggles at the other end of the Gazette editor's backbone; and makes "the greatest living curiosity of the age."

Of Course Its Right.

[Kendallville News.]

The Fort Wayne newspapers, especially the SENTINEL, condemn the debauchery and crime going on in that city in strong and emphatic language. That is right, such is the province of newspapers.

LAST NIGHT'S DISPATCHES.

Details of the Wreck of the Steamer State of Virginia.

Cox, the Murderer of Mrs. Hull, will Swing.

Particulars of the Terrible Revolution at Port au Prince.

Grant's Asiatic Travels—Yellow Fever at New York—The Situation at Memphis.

Various Crimes and Casualties—Foreign Notes—Labor Strikes—Sporting News.

LABOR VS. CAPITAL.

Chicago, July 17.—In a large meeting, in which forty-eight of the principal furniture establishments of the city were represented, it was resolved this evening not to accede to the demands of the striking cabinet makers for the eight-hour system, and it was determined that ten hours should constitute a day's labor as heretofore. The opinion was general that it was better to close their places of business than to give up to the strikers. About half of the latter have returned to work on the old conditions.

Fall River, Mass., July 18.—To-day begins the fourth week of the strike, and nearly spinners can now call upon the unions for aid. Officers of the spinners' union were busy all day in filling out orders for assistance. They state no regular sum is to be given, but orders will be issued to meet the wants of individual cases. No money will be given, and all assistance will be in the form of groceries. Several spinners arrived yesterday, and as a result the Robinson mill is running full this morning.

GRANT'S TRAVELS.

Graphic accounts are received of Grant's reception at Peking and Peking. He was banqueted and feted and received more attention than was ever before bestowed upon a foreigner. Grant arrived at Nagasaki on June 21st, and was presented with an address of welcome by a committee chosen to represent all alien nationalities. The original arrangements were changed to avoid the cholera. The party will go direct to Yokohama and Tokio. By imperial decree the reception is to be in all respects identical with what would be accorded the reigning monarch of any European country. The conduct of British Admiral Coates is severely criticized. This officer left Hong Kong immediately before Grant's arrival there, the same at Shanghai, and now suddenly starts on a pleasure trip to Yokohama. It is understood to be in consequence of the unwillingness to give a salute of twenty-one guns. The British minister endorses his action by accompanying him on the present cruise.

YELLOW FEVER.

Chattanooga has refused to raise the quarantine against Memphis. A Memphis telegram dated last night says: Mrs. Jas. Hester died just after 12 o'clock and was buried at 3 o'clock this afternoon. No new cases are reported since this morning, although there are one or two people sick in the city whose cases are considered suspicious. The announcement of five new cases this morning did not create a panic. Many Memphians will leave the city to-night and to-morrow night. Business is severely injured by the developments of new cases and several firms will immediately remove their stock of goods to St. Louis, Louisville and Cincinnati. Garbo's Hotel closed to-night. The Gordon House will remain open. The Howard Association is all ready for active work, but do not consider the situation sufficiently alarming to begin operations. A steady rain began falling at 9 o'clock.

THE WRECKED STEAMER.

Quebec, July 17.—The purser and a boat's crew of the steamer State of Virginia have landed at Sherbrook. They left Sable Island on Sunday. All the passengers were well. The weather had been fine since leaving New York until Thursday night, when the vessel went ashore in a fog. Assistance will be sent from here to the passengers on the island. The vessel is likely to be a total wreck. Four women and five children were lost. Their names are Miss M. G. Martin, R. S. Wilson, Mrs. Beden and two children, John Wedderburn, Mrs. M. G. Glore, Miss Cornan and Miss Walker. The ship had eleven feet of water in the hold when the boat left the island. They received the hospitality of the people on the road from where they landed to New Glasgow.

The purser says after the steamer struck guns were fired, which brought the governor of the island, McDonald, to our assistance in a surf boat. This boat took ashore one woman, four men and the purser, four officers and the doctor, all of whom were safely landed, though the surf was very heavy. Two boats left the ship with fifteen persons. The second boat, when fifty feet from shore, capsized, and all the occupants were thrown into the water. Some of those struggling in the water succeeded in climbing to the bottom of the boat, which presently was righted, and washed ashore with those clinging to her being badly bruised, but thankful to get ashore alive. The other boat went around to the other side of island and next day all were safely landed. Monday night the third officer with purser and nine men started

in an open boat for the mainland. The first night was rainy, foggy and the most uncomfortable night ever passed. Tuesday night they reached the mainland but the sea was running too high to land. Waiting till morning they succeeded in landing safely at Port Bickerton and drove to New Glasgow, whence they came by train to Halifax.

THE PORT AU PRINCE TROUBLES.

Later details are received of the Port au Prince troubles already mentioned in our dispatches. On Monday, June 30th, Petit Canal, a brother of the president, shot DeLorme, a member of the legislative chamber. A general shooting affray ensued, in which forty other members and some of Canal's adherents were killed. The shooting commenced on Monday and was kept up till the out department, 4:30 p. m., July 3d. Business was suspended. In the meantime there was a report in circulation that the rebels would have to submit to the government's demands. A serious fire occurred at that place Monday, 30th ult. The fire originated from the discharge of shells in the town. Several blocks of buildings were burned, a number of lives lost, and many wounded. The inhabitants had to take refuge in the hills. A wide spread revolution is considered imminent. When the Elu left Port au Prince the custom house was closed and business suspended. The place was still burning.

THE COX TRIAL.

New York, July 17.—In the Cox trial to-day, after an address by the district attorney on behalf of the people, Judge Cowing charged the jury, and at 5:15 they retired. At 6:15 the jury came into court with a verdict of "Guilty of murder in the first degree," and the judge sentenced Cox to be hanged on the 29th of August next.

CRIMES AND CASUALTIES.

Bangor, Me., July 17.—A woman was found yesterday afternoon in an unoccupied mill in the upper story, gagged and unconscious. She proved to be Mrs. Adeline Sherman, a domestic in the family of Arthur Sawyer. She left home night before last, and is supposed to have taken refuge in the mill during the violent storm, when she was surprised by the thugs, gagged and outraged. She was nearly dead when found, and has not yet been restored to consciousness. Great excitement prevails.

Bangor, Me., July 17.—The perpetrator of the outrage on Mrs. Witham, not Sherman, reported at Upper Stillwater, proved to be Edgar Kenison, who boarded at the house where she was employed. After being restored to consciousness, she told who her assailant was, and stated that he knocked her down and subjugated her to the outrage, after which he bound and gagged her, and threw her into an old boat in the basement of the mill. Kenison has been arrested. The excitement and indignation is very great, and there is strong talk of lynching.

Independence, Mo., July 17.—The mate of the steamer John Kinney shot a negro deck hand dead while the boat was loading at Camden Point. The mate gave himself up, and an investigation is in progress.

Macon, Ga., July 17.—Jim Williams shot and killed Columbus Cook yesterday near Cochran, Ga. Both were colored men. Cause, jealousy.

Wilmington, N. C., July 17.—Maria Covington was killed last night by her paramour, Samuel Pickett, who hammered her over the head with a poker. Jealousy was the cause.

New York, July 17.—Joe Sanford, the well known circus performer, went into the gymnasium yesterday to take the perspiration out of him. He ran half a mile around the ring where circus horses are exercised, and then took a bath. A minute later he came out and prepared to take a turn on the horizontal bar. He had hardly uttered his intention when he fell to the floor and died of heart disease. He leaves a wife and one child.

St. Charles, Mo., July 17.—William Baker, convicted of murdering Chatterbox, is to be hanged on the 25th of August.

Youngstown, O., July 17.—During the severe storm which passed over this section yesterday three barns near Vienna, nine miles north of here, and within half a mile of each other, were struck by lightning about the same time and consumed. Total loss over \$1,500. The owners were Austin Rogers, Edleon Rogers and Henry Fowler. The latter was insured for \$300.

Muncie, July 17.—A nine-year-old son of Wm. Hill (colored) riding near Economy, Wayne county, about twenty-five miles south-east of this city, became enraged at his sister aged seventeen, yesterday, and coolly procured his father's shot gun and shot her through the heart producing instant death.

Trenton, July 17.—Gov. McClellan has granted a reprieve in the case of Covert Bennett and Mrs. Smith for the murder of police officer Smith, until August 15th.

Chattanooga, Tenn., July 17.—During a heavy storm this afternoon several small houses were blown down. Shontsboro's boiler works and Lindsay's storehouse were struck by lightning, one woman and a small child were stunned.

Cincinnati, July 17.—At Morgan town, a fire broke out in a very stable and burned eleven horses. Several persons narrowly escaped with their lives.

Reno, Nev., July 17.—A fire started in the snow sheds on the Central Pacific Railway between Emigrant Gap and Cisco at 12:50 this morning, and burned 1,250 feet of sheds, and dined trains four hours.

Owensboro, Ky., July 17.—One court rooming this forenoon, Dr. Shipley was recalled. The witness went

on to explain the difference between sanity and insanity. He was frequently interrupted by the judge, who said the jury could not understand it and he did not think the parties engaged in the examination knew anything about it. The doctor continued for nearly two hours and when he had closed, instructions were given the jury. Arguments commenced by Mr. Letell of this place, who spoke for three hours, making a very able argument. The arguments will probably close to-morrow, and the case be given to the jury on Saturday.

Boston, July 17.—The parties who were arrested yesterday for being concerned in causing the death of Jennie P. Clark, the victim of the Lynn trunk mystery, were indicted by the grand jury this forenoon and soon after arraigned before Judge Aldrich, who ordered each of the defendants to recognize in the sum of \$15,000, in default of which all were committed.

Chas. Baxter and Marcellus Bent were drowned yesterday, off Long Island, by the capsizing of boats. The house of Mrs. Hayden, at South Braintree, was partially destroyed yesterday, and herself and a young lady so seriously injured that both were taken to the hospital.

Sand Lake, Mich., July 17.—B. W. Pangborn's general store burned last night. Loss, \$1,400; insured for \$1,000. Fire supposed to be the work of an incendiary.

Potosky, Mich., July 17.—George Johnson was arrested to-day and taken to Adrian, this state, where he is charged with bigamy, having four wives.

The Evangelical Lutheran Synodical Conference of America is still in session at Indianapolis.

The treasury department has issued warrants on the last batch of requisitions from the secretary of the interior for arrears of pensions, amounting to \$1,805,000, to which add the amount heretofore paid, \$3,035,000, making a total to date since July 1st, 1879, of \$4,840,000. FOREIGN NOTES.

was in the great cotton famine caused by the American war.

The latest intelligence from central Asia is to the effect that China is preparing for war with Russia. At Wimbledon in the contest for the Armory's prize, in which the American marksmen distinguished themselves, four others, besides those mentioned, succeeded in making the highest possible score. Wm. Farrow, an American, made the highest score for single-barreled sporting rifles, in the contest for the Martin Smith prize.

The latest news from the Zulu war is to the effect that Cetshwayo is still in the field with a force of 10,000 men. Complying with the requirements of Lord Chelmsford, Cetshwayo sent to the British camp the cattle demand, and also an ivory tusk. The commanding officer detained the cattle, but refused to accept the tusk, which was an emblem of peace. Sir Garnet Wolseley immediately after this act sent a messenger to Cetshwayo, explaining that the refusal of the tusk was a blunder and asked that three leading chiefs be sent to the frontier.

HONORED AND BLESSED.

When a board of eminent physicians and chemists announced the discovery that by combining some well known and reliable remedies, the most wonderful medicine was produced, which would cure such a large number of diseases, and which remedies could be administered with safety, were sceptical; but proof of its merits by actual trial has dispelled all doubt, and to-day the discovery of this great medicine, Hop Bitters, is honored and blessed by all as benefactors.

PROFITABLE STOCK INVESTMENTS.

Before Messrs. Lawrence & Co., the New York bankers, inaugurated the combination system of operating in stocks, it was often very difficult for inexperienced operators, or even old stag, to deal profitably by their single handed ventures. Now the field is open to everyone for successful operations, and capital in any amount, from \$10 to \$20,000, can be used with equal proportionate profit. Instead of distracting efforts among many customers, the orders of thousands are concentrated into one vast pool and co-operated for the benefit of all, dividing profits *pro rata* every month. A prominent citizen of San Francisco made \$1,264.38 from an investment of \$300 last month. Other customers are doing better still. \$25 pays \$125 during the month, \$200 returns \$1,200, or 6 percent on the stock; and so on as the market moves. New circular contains "two unerring rules for success," and full instructions for anyone to operate profitably. All the advantages of unlimited capital and careful manipulation are secured by the combination method. Stocks and bonds wanted. Government bonds supplied. Deposits received. Apply to Lawrence & Co., bankers, 57 Exchange Place, New York City.

It is strange so many people will continue to suffer day after day with dyspepsia, liver complaint, constipation, nervous stomach, and general debility when they can procure at our store SHILOH'S VITALIZER, free of cost if it does not cure or relieve them. Price, 75 cents. Sold by Dreier & Bro.

TRINITY'S TROUBLES.

An Inmate Churchman Takes Up the Cudgel in Behalf of Rector Tate.

To the Editor of the Sentinel:

As a member of Trinity parish I was pleased to observe the following in last night's SENTINEL:

"The SENTINEL understands that the differences between Rev. Mr. Tate and the vestry of Trinity Church are being settled, and Mr. Tate will remain here. It is claimed that the opposition to Mr. Tate is confined to a very small faction in the church led by one or two of the older members of the vestry, and that the rest of the congregation are in hearty sympathy with the pastor and appreciate him as a preacher and church worker."

I think that the above statement is substantially correct. So far as I can learn, the rank and file of the congregation of Trinity are heartily in accord with Mr. Tate, and are disposed to resent the treatment he has received from the vestry. The fact is that Mr. Tate is being sacrificed to gratify the spite of three families—J. K. Edger-ton's, the Bonds and the Nelsons—(please publish the names, Mr. Editor)—who seem disposed to "run" the church to suit themselves without consulting anybody else. The fact is that Mr. Tate has never been sustained here as he should have been, and the majority of his congregation feel that his treatment has been shameful.

I will only add that this communication is written from a sense of justice and without the knowledge or consent of Mr. Tate.

Please publish it just as it is written or not at all.

CHURCHMAN.

"A Fearful Condition of Morals."

(Kendallville News.)

The newspaper accounts of the Sheehy murder at Fort Wayne, on the evening of the Fourth of July, are certainly horrible. It shows a most fearful condition of morals in that city, and one must come to the conclusion that human life is of but little value to many that live there, and the least provocation is sufficient to take it. It seems that the man Sheehy was not a quarrelsome man and was simply attracted to the fair ground as thousands of others were, and participated in the dance and drank as others did. The women in attendance at the dance were all "fast" or bordering on it, and it is remarkable that men will have any contention over such common characters. It can only be accounted for in one way and that is the influence of liquor. Liquor killed Corson. Liquor killed Sheehy. Maddened by its influence the least provocation results in sending human life to eternity.

Emergencies are constantly arising in domestic life calling for prompt remedial attention; and generally nothing is safer to administer than a good purgative medicine. Dr. Bull's Baltimore Pills are the family remedy now mostly relied upon. Price only 25 cents. Sold by all druggists.

LADY BEAUTIFIERS.

Ladies, you cannot make a fair skin, rosy cheeks and sparkling eyes with all the cosmetics of France, or beautifiers of the world, while in poor health, and nothing will give you such good health, strength and beauty as Hop Bitters. A trial is certain proof. See another column.

A FOOL ONCE MORE.

Forten years my wife was confined to her bed with such a complication of ailments that no doctor could tell what was the matter or cure her, and I used up a small fortune in humbuggery. Six months ago I saw a U. S. flag with Hop Bitters on it, and I thought I would be a fool once more. I tried it, but my folly proved to be wisdom. Two bottles cured her, she is now as well and strong as any man's wife, and it cost me only two dollars. Such folly pays.—H. W., Detroit, Mich.

For lame back, side or chest use SHILOH'S POROUS PLASTER. Price, 25 cents. Sold by Dreier & Bro.

PERIPATEIC PAUPERS.

Plentifully Perambulating from Pillar to Post.

The Deaf and Dumb, the Blind and Halt on Their Travels.

There is a vast army of crippled, deformed and diseased paupers constantly traveling from one end of the country to the other. They are kept on the go by the authorities who furnish them transportation from one place to another, with a view to getting rid of the burden of their support. Fort Wayne's railroad system is so complete and thorough, giving her connection with so many different points, that she is constantly receiving more than her share of these unfortunate. Scarcely a day passes that one or more of these poor creatures do not come to Fort Wayne, having been sent here by the authorities of some neighboring town. Township Trustee Hamilton has his hands full with those people, but he knows that Allen county has her hands full caring for her own paupers and cannot take those belonging to other localities. He, therefore, finds out at once where these people hail from, and if the distance be not too far, he sends them back. If it is too far he sends them part of the way, knowing that the local authorities of the town to which he ships them will continue them on their travels.

Sometimes, however, like bad pennies, they will come back and have to be shipped away again and again before they are finally disposed of. The trustee, of course, does not give these people money to pay their fare, but furnishes them orders for transportation, which orders are afterwards reduced by him.

The annual expense of this transportation foots up a considerable amount, but of course it is very much less than it would be to keep them here and care for them.

In aggravated cases the railway officials usually give passes to these people for a distance greater than the trustee's order calls for. For instance parties whom Mr. Hamilton sends to Columbia City are occasionally carried as far as Chicago. Some important railroad centers, such as Pittsburgh, have adopted stringent regulations, prohibiting the bringing of paupers into their limits upon free passes. They hold the railroad companies to a strict responsibility for all violations of these regulations, and compel them to take the paupers back to the places from which they came.

A TRIO OF BUMMERS.

Come up Smiling and Receive The Mayor's Blessing.

This Morning's Session of Police Court.

The old veteran of many summers and more drunks, John Fitzgerald, paid his semi-occasional visit to the mayor's court this morning.

"John, is it possible?"

"Yes, yer honor. It's all rite; I'm agoin' rite back this mornin' and I'll stay."

"Back where, to jail?"

"No your honor, I'm going back to Mr. Miller's. He said if I came out he would give me all the work I wanted."

"He would eh? Well you just send word to Mr. Miller, that you can't get there before the evening of the 25th of July. In the meantime Mr. Fitzgerald, please sit on one leg while the marshal goes out and gets a drink."

"Mr. C. cheerer step this way."

Mr. C. explained that owing to the excessively high condition of the atmosphere, he indulged in about an inch of whiskey, to sort of warm him up like.

"Was it an inch in the Fort Wayne reservoir?"

"No sir."

"Well it should have been. Your fine will be \$1.00 and costs."

"Adam what smiles you so?" said Sam Morris as Adam Shoemaker faced the magistrate.

"I'm smiled at the music."

"No smiling here," said the marshal.

"How many smiles did you have last night?" said Sam.

"Well, I should smile," said the mayor.

"No smiling here," again thundered the marshal.

"One dollar," was all the mayor could say.

THAT REGATTA.

The Prospects Not at All Favorable.

Something for Our Business Men to Consider.

Our reporter this morning held a conversation with one of our leading sportsmen in regard to the chances for the holding of a regatta in this city. He said that the prospects were gloomy for such an undertaking, as much difficulty would be experienced in getting crews to participate in it, and on the other hand our facilities are limited. He said that the river would not be a suitable place, as it is crooked and not more than two boats could race at the same time without danger of fouling. However, he thinks that sometime during August a good day's fun may be had by the votaries of boat racing, but as for getting up a regatta it is decidedly out of the question. This cannot be but deplored by our citizens, many of whom expected such an event to take place. The advantages which would accrue to Fort Wayne from such an enterprise are many. In the first place it would serve to give Fort Wayne prominence as a sporting center and would be the means of attracting a large crowd. Fort Wayne is practically dead as regards sport of any kind. Were it not for holding an annual fair, there would be nothing to relieve the monotony of every-day life. Why do not our merchants go to work and offer inducements to those who would go elsewhere when they want to spend a few days' recreation? They will grow old at the stagnation in trade, when the blame rests entirely with them. Let them inaugurate a new era by encouraging substantially enterprises of any kind that will help the city and themselves.

MIDNIGHT MARAUDERS.

Cheeky Depredations of a Lot of Tramps.

Who Should Have Been Treated to a Dose of Cold Lead.

N. J. Baughman is an engineer on the Grand Rapids Railroad and lives at 179 Hanna street. On Monday night Mr. B. was absent on the road, his wife and little daughter being alone in the house. About 1 o'clock at night three or four men went to the premises and made several unsuccessful attempts to effect an entrance through the doors and windows. Mrs. B. heard them but being greatly frightened gave no sign. The rascals then went into the summer kitchen and the cellar, built a fire, cooked steak, made coffee, etc., etc., and enjoyed a square meal. Mrs. B. knew all the time what was going on, but feared to make a noise lest violence should be offered her. After the unwelcome guests had consumed a square meal, they again tried the windows and doors. One of them was heard to say: "There's nobody at home; let's get in." Mrs. B. mustered up courage enough to reply: "O, yes; there is somebody here." The reply was: "O, h—! you're nothing but a woman." At that Mrs. Baughman gave several loud cries for help, and the rascals becoming alarmed, beat a hasty retreat. If the lady had filled their carcasses with shot, she would have been entirely justified.

A cripple was on duty before yesterday shipped from Chicago to this city. The Fort Wayne authorities in turn shipped him to Van Wert, O. Van Wert shipped him back to Fort Wayne, and last night he was reshipped to Van Wert. He is hourly expected back here.

Madame Kroeningburgh, the clairvoyant, called at the SENTINEL office to-day and denied the statement that she is washing dishes at a restaurant on Calhoun street, or anywhere else. She is busily engaged attending to her legitimate business as a clairvoyant and physician.

During the recent hot weather a couple of rural individuals visited the SENTINEL news room while the Memphis dispatches were being put in type. They gazed with wonder upon the grace and dexterity displayed in setting type—and correcting proof—by a dilapidated "sub" just in from a thousand-mile tramp, when suddenly the foreman called out, "Who has the last of 'Yellow Fever'?" "H'yar!" responded the d. s. in feeble accents. One of the visitors caught the other's arm and gasped, "Great Caesar! let's get out of this! Here's a man in the last stages of yellow fever!"

Last night as the second section of No. 7 on the Wabash entered the bridge across Turkey Creek, between Napoleon and Liberty, O., the engine (No. 7, Mitchell, engineer), struck a large timber which had been placed across the track, and was thrown from the rails. The engine passed the bridge safely, but ten cars of the train were precipitated through the bridge into the creek below. Happily no one was injured, although the loss to the railroad company will be considerable. The break will be fully repaired by 5 o'clock this evening, and passenger trains were delayed but a few minutes by the accident, a temporary fixture being at once erected. The bridge was a wooden structure.

The Autopsy on Dick Stewart's Body.

The Lafayette Courier of last evening says:

As noticed in last evening's Courier, a post mortem examination was held yesterday afternoon upon the body of the late Richard Stewart, the Wabash fireman. The examination was made by Drs. Vinnege and Cady, in the presence of six other physicians, and revealed a fracture of the inner table of the skull in a V shape, extending from the upper portion of the skull to the base of the brain. A large clot of blood was also found pressing against the brain. This last was the direct cause of the death, which ensued from compression and concussion of the brain. The post mortem was held by permission of the relatives. There can be no doubt but what the injuries were caused by a fall on the cars.

A Card.

To the Editor of the Sentinel: The Michael Martin mentioned in the Shumaker-Zimmerman article in last evening's SENTINEL is not Michael I. Martin of 359 Hanna street. It must be some other man. Similarity of names is sometimes annoying.

BURGLARY.

A Butcher Shop and Grocery Relieved of \$100.

Sheriff Munson Captures the Thieves and Recovers the Goods.

Last night the butcher shop and grocery store of Joseph Stark, of New Haven, was burglarized. The thieves gained an entrance to the store through a window and forced the safe, abstracting therefrom \$100 in cash. A large and vicious bull dog was in the store at the time, but he gave no alarm. This fact is regarded as rather singular, as the dog is very unfriendly and will even attack Mr. Stark if he enters the store after night. It looks as though the burglars were pretty well acquainted with the dog and premises. Sheriff Munson was telegraphed for. He has not yet returned, but as far as can be learned no clue has been obtained of the burglars.

LATER.

Sheriff Munson arrived home this afternoon. He and Deputy Samuel Miller had arrested Arthur Stark, son of the man who was burglarized, and John Kane. Stark is about twenty and Kane about seventeen. They were brought here and lodged in jail. The goods were all recovered. The inside box of the safe was found on the bank of the creek, the silver in a tin can under a barn, and the bills wrapped in a rag and placed in a fence corner.

BUSTED.

F. Fleigner Makes an Assignment.

Liabilities, Between \$5,000 and \$6,000.

Ferdinand Fleigner yesterday made an assignment of all his personal property to Robert Stratton, in trust for his bona fide creditors. His liabilities are between \$5,000 and \$6,000. The exact figures are not known. His assets, which consist of stock on hand, household furniture, clothing and personal ornaments, bank accounts and notes, all of which are included in the assignment, are about \$4,000, probably more and possibly less. Robert Stratton has filed his bond as assignee in the sum of \$5,000, with Emmett H. McDonald as security. Mr. Stratton has charge of the entire stock which he will close out at once. Mr. Fleigner has been a most enterprising business man in his line of trade, but has evidently overreached himself, which was superinduced by extensive competition in his line.

The public hope to see him resume again in a short time. He in the meantime has pursued a most honorable course, and assigned even what might have been exempted for the benefit of his creditors.

Matt Bowser's hunting dog "Sport" was this afternoon attacked with violent spasms. It was supposed that he had taken poison, and an emetic was immediately given. The dog is valued at \$50.

The post mortem was held by permission of the relatives. There can be no doubt but what the injuries were caused by a fall on the cars.

A Card.

To the Editor of the Sentinel: The Michael Martin mentioned in the Shumaker-Zimmerman article in last evening's SENTINEL is not Michael I. Martin of 859 Hanna street. It must be some other man. Similarity of names is sometimes annoying. MICHAEL I. MARTIN.

BURGLARY.

A Butcher Shop and Grocery Relieved of \$100.

Sheriff Munson Captures the Thieves and Recovers the Goods.

Last night the butcher shop and grocery store of Joseph Stark, of New Haven, was burglarized. The thieves gained an entrance to the store through a window and forced the safe, abstracting therefrom \$100 in cash. A large and vicious bull dog was in the store at the time, but he gave no alarm. This fact is regarded as rather singular, as the dog is very unfriendly and will even attack Mr. Stark if he enters the store after night. It looks as though the burglars were pretty well acquainted with the dog and premises. Sheriff Munson was telegraphed for. He has not yet returned, but as far as can be learned no clue has been obtained of the burglars.

LATER.

Sheriff Munson arrived home this afternoon. He and Deputy Samuel Miller had arrested Arthur Stark, son of the man who was burglarized, and John Kane. Stark is about twenty and Kane about seventeen. They were brought here and lodged in jail. The goods were all recovered. The inside box of the safe was found on the bank of the creek, the silver in a tin cup under a barn, and the bills wrapped in a rag and placed in a fence corner.

BUSTED.

F. Fleigner Makes an Assignment.

Liabilities, Between \$5,000 and \$6,000.

Ferdinand Fleigner yesterday made an assignment of all his personal property to Robert Stratton, in trust for his bona-fide creditors. His liabilities are between \$5,000 and \$6,000. The exact figures are not known. His assets, which consist of stock on hand, household furniture, clothing and personal ornaments, book accounts and notes, all of which are included in the assignment, are about \$4,000, probably more and possibly less. Robert Stratton has filed his bond as assignee in the sum of \$5,000, with Emmett H. McDonald as security. Mr. Stratton has charge of the entire stock which he will close out at once. Mr. Fleigner has been a most enterprising business man in his line of trade, but has evidently overreached himself, which was superinduced by extensive competition in his line.

The public hope to see him resume again in a short time. He in the meantime has pursued a most honorable course, and assigned even what might have been exempted for the benefit of his creditors.

Matt Bowser's hunting dog "Sport" was this afternoon attacked with violent spasms. It was supposed that he had taken poison, and an emetic was immediately given. The dog is valued at \$50.

THE COURTS.
